T.O.S

I DON'T WORK:

- ★ Mecha (cyborg is fine)
- ★ Fetishes for babies and children's things
- ★ Coprophilia, guro

On placing an order - I will make some rough sketches, in which I will present my variants of the vision of the artwork, from which you can choose what we will start working with.

After that, payment is made in the form of your choice and I get to work.

The work will be sent at different stages such as line, color, first render, etc. Corrections and additions can be made at these stages. If the changes require serious revision, for example, a complete change of pose or clothes of the character - it is paid additionally (I will inform you about it at once at such a request).

If you pay in installments - I will send the full work in good quality after full payment.

If you want: I can send the original version (CSP file), do not mention your name or do not publish at all

Deadline is set individually, after approval of the order depending on its complexity*
