

A Note on Discrepancies and What's Missing

(revised 8/16/15)

As you look through the spreadsheets you will notice multiple name spellings and discrepancies in schools, scores and times. This is because results have been compiled from multiple sources. In those instances where differences could not be reconciled, multiple names, scores and times were entered. Newspapers often misspelled names.

Collecting race results is always a work in progress. My goal is to compile complete race results. For the NJSIAA Meet of Champions boys races, I have complete race results for all races from 1988, 1991 and from 1996 to date. For all other races I only have partial results. For the girls races, I have complete results from 1997 and partial results for earlier races. I have not been able to find much information on the 1972 girls race.

If anyone has information to fill in the data gaps and is willing to share such information with me and the SJTCA, please contact the SJTCA webmaster at sjtcaweb@gmail.com.
