“ Webinar on Embracing Careers from Volunteer Roots ”

Mr. Heyram, an accomplished professional with a strong background in Electrical and Electronic Engineering (EEE), served as the speaker for the enlightening webinar on "Embracing Careers from Volunteer Roots." He holds the esteemed positions of website co-lead for IEE Yesist 12, website coordinator for IEEE India Council, and an active IEEE Member and Young Professional within the IEEE Member and Geographic Activities (MGA). The webinar was conducted online via Gmeet, offering a convenient platform for participants to join. This one-hour session, which took place from 7:00 pm to 8:00 pm, delved into the invaluable career opportunities that can stem from active volunteer involvement. Participants were inspired to embrace the journey from volunteer roles to successful careers, gaining insights into how volunteering can shape and advance their professional lives.

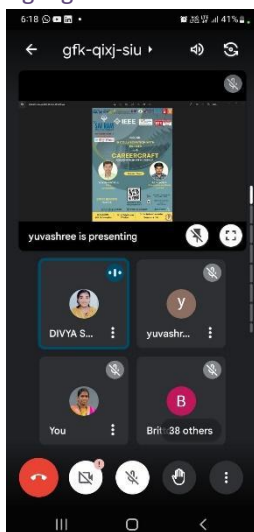

“ CareerCraft - Resume Refinement Workshop ”

On August 26, 2023, the Photon Society (PS) and the Broadcast Technology Society (BTS) jointly organized "CareerCraft," a workshop focused on refining resumes. The workshop aimed to provide participants with essential insights and practical tips for enhancing their resumes, making them stand out in the competitive job market.

The workshop featured two distinguished speakers: Yogesh Britto A from Zoho Corporation and Rajkumar P from Accenture Solutions Pvt Ltd. Both speakers shared their expertise and experience in recruitment and career development.

This informative session took place online via Gmeet, providing an accessible platform for attendees. The workshop spanned from 6:30 pm to 7:30 pm, offering a concise yet comprehensive exploration of resume refinement. Participants had the opportunity to learn how to create compelling resumes that effectively highlight their skills and experiences, ultimately boosting their career prospects.

“Introduction to Smart Cities”

On August 31, 2023, the Computer Society (CS) hosted an informative session titled "Introduction to Smart Cities." The session was led by Avinash N, an expert in the field of urban development and technology. This online event was accessible to a wide audience and took place from 7:00 pm to 8:00 pm. Attendees had the opportunity to gain insights into the concept of smart cities, understanding how technology and innovation are shaping the urban landscape.

Avinash N guided participants through the key principles and technologies that drive smart cities, highlighting their potential benefits and impact on urban living. This session served as an excellent platform for individuals interested in the future of urban development and the role of technology in creating more sustainable and efficient cities.
