

February 1, 2023

Dear Parents,

I would like to welcome you to grade 12 Earth & Space Science.

As a resource to you and your student, I have designed a website to share with you various resources and important dates throughout the semester. Please visit my site at <http://mrclark21ca.googlepages.com>. From the main page, please select the appropriate class and section. We also have a “[Class Plan](#)” which will give you the day to day flow of the class with active links to all lesson materials and assignments.

In the interests of saving paper, I have posted some of the key documents that require your review on my website. From the appropriate class page, please select, “Paperwork for Parental Review” from the right hand side of the page. From there, you will be directed to several documents that require your attention. You can either print these out or review them on line. Once you have had the chance to review these documents, please indicate this by initialing in the proper space at the bottom of this page. Students have reviewed these in class, but please ensure that both the student and a parent have initialed for each document.

If you have any questions regarding these documents or about the class in general, please contact me via email at mrclark21ca@gmail.com.

Sincerely,

Sean Clark

Student Name

Parent Name

Date

We have read the **Course Outline** and understand the expectations of this course and what is required for its successful completion

Initial

Initial

We have read the **Lab Agreement** and understand what is required for safe conduct in the lab. We understand that failure to meet these expectations will result in being removed from the lab during the experiment and possibly future experiments.

Initial

Initial

We have read the **Student Expectations** and understand what is expected for appropriate behaviour in the classroom.
