What Participants Say About Learning with Chankerk

★★★★★ Google Review

"I did the travel sketching workshop with Mr. Chankerk, who is not only an accomplished artist, but someone who helps make the philosophy behind art easy to access.

He teaches with patience and planning to make the workshop a true learning experience. The small batch also makes sure there is individual attention.

You will learn to 'think' and 'see' differently, and is especially great if you are a beginner."

"I had the opportunity to join Chankerk on a sketching excursion to West Bali. I went without any expectations and it was an eye-opening experience.

Not only did he teach me the basics of sketching but also life philosophy lessons. It was a challenge trying to accept that I've sketched the wrong lines on a blank piece of paper, but he taught me that it is ok to make mistakes in life.

It was also refreshing to see the passion that other participants have for art and the simple beauty of nature.

I highly recommend art excursions with Chankerk, you will learn to embrace life's simple pleasures and living in the moment!"

"My Art Space studio, easily accessible by both bus and MRT and surrounded by calming greenery and glass walls, created a truly inspiring environment for learning.

I joined a one-day sketching workshop that provided a foundation in basic watercolour washes and sketching, as well as a full-day Malaysia art excursion.

Mr. Chankerk, our patient trainer, provided clear guidance, encouraging us to sketch what we saw and felt in the moment, revealing hidden beauty and making the learning process enjoyable.

It was also great to meet new friends who share the same interests. The double rainbow and sunset was beautiful and this trip brought us precious memories."
