

# Physics and Topology abstract template: title in Times New Roman 14 pt, bold, centered, and it should not exceed two lines!

An Author<sup>1</sup>, Presenting Author<sup>2</sup>, ..., Nth Author<sup>M</sup> in Times New Roman 12, centered

<sup>1</sup>*one institution name, italic, Times New Roman 11*

<sup>2</sup>*one institution name, address, nation*

<sup>M</sup>*yet another institution name, address, nation*

Email: corresponding.author@wherever.heis.from.com

This document is written as an example for the abstract submission [1]. The settings (fonts, A4 page layout, justify, etc) should not be changed. The font is Times New Roman, and the font size for the main text is 11. **Everything must fit within a single page.** The maximum length of the main text, figure caption and references is **2000 characters (less than 400 words)** including spaces. The title, author list and affiliations are not included in this count!! The paragraphs should be separated by a line. Single line spacing should be used throughout the text. The page margins are 25.4 mm (1") from top and bottom, and 31.7 mm (1.25") from left and right.

This example document was created using Microsoft Word. You are obviously free to use whichever version is available to you, including Open Office. The file should be saved in .doc format.

**Figure.** At most one figure is allowed [1]. The height should not exceed 60 mm. The caption should be in Times New Roman 10 pt font. The figure should be centered.
