

The Rules for the ARA Factory Class are found in the [American Rimfire Association Rule Book](#) section 8.

"Is my gun approved for the ARA Factory Class?"

Factory Class

ALL 22lr rifles currently in production
with MSRP under \$1250 are allowed.
(MSRP as of 1/1/2023)

Any rifle NOT in production, must be
on the "Approved" list.

Check the Approved List for exceptions.

ANY rifle in current production that is tube or magazine fed and has a current MSRP of less than \$1250 is approved. There is no need for these to be on the list. No rifle in current production under \$1250 is going to be specifically listed as it meets the #1 criteria.

You can View, Download, and/or Print the flow sheet and [ARA Factory Class Approved / Not Approved Rifle list](#) as well as access the online fillable [Factory Class Request Form](#). The request form is **ONLY for rifles not in current production.**
