PowerEssays.com Writing Service Review

PowerEssays is famous for its successful track record of completed college essay assignments. Having closely reviewed them and examined their paper quality for a period of two weeks, I should say that they really are a worthy solution for college-level essay assignments. They have delivered to me a high-complexity paper of decent quality and well within the deadline. No issues in terms of grammar, style, or plagiarism whatsoever.

Prices and Fees

Their base prices for a standard essay page start at 9.99 USD. There are no additional fees for the title and bibliography pages. Yes, there are more affordable services out there, but given the paper quality, I think – this is a very good deal. Also, permanent customers at PowerEssays can enjoy a nice progressive discount of 20%. New clients will also appreciate a meaty first-order discount of 15%.

Guarantees

When it comes to guarantees, there are no surprises here – the Terms of Use and the Money-Back policy are plain and clear. Customers are guaranteed full anonymity and security of personal information. Financial transactions are protected by the latest and the most reliable security protocols. Customers are entitled to an unlimited number of free-of-charge revisions and up to a full refund if the complaint is submitted not later than 10 days after order completion.

Service Review and Online reputation

I didn't experience any trouble finding user reviews and expert assessments of PowerEssays's work online. Basically, all major customer review sites, such as SiteJabber and TrustPilot, contain plenty of reviews, the majority of which are positive. The company also does a great job of answering clients' questions and handling their complaints.

Customer Support

The customer support service at PowerEssays works on workdays as well as weekends. One won't need to wait in a long line to get their phone call answered. Additionally, they keep a separate online chat box open for anyone looking to communicate in English. The agents at customer support service are attentive to details and polite.

Types of Services

PowerEssays covers a variety of academic papers from all major disciplines. They don't only work with essays, but also with term papers, course works, laboratory reports and experiments, theses, dissertations, help with CV writing, and composing letters of recommendation. When it comes to the speed of delivery – they can work fast and super-fast, within one business day and 3 hours respectively.

Ordering Process

To place an order at PowerEssays, fill in the online form (user-friendly and simple) or call the support office. Either way, it won't take you long to place your order. Within 3 hours, they assign a writer and the order execution process begins. All progress to your order execution can be easily tracked on your account page (created when you place your order). Also, stay alert for possible email messages from your assigned writer with further clarifications and questions.

Offers and Extra Services

The company may offer occasional promo codes and discounts, so stay tuned to the information on their website, or subscribe to the official newsletter.

PowerEssays supplements all completed orders with gratis plagiarism reports – a good sign the company cares about the quality and originality of its papers. Also, one can order an additional editing and proofreading service – that one comes at a separate price.

Pros/Cons

- Decent paper quality
- Affordable prices
- Good customer support service
- The intuitive and simple ordering process
- No database of reference essay samples

About Me

Functionality & Navigation – 6/10 PowerEssays.com Review

PowerEssays.com Review PowerEssays.com Review There is also a rather noticeable missing feature of a site map in the footer of the website which would increase functionality. There is a conveniently located 'Call Us Now' button in the top left but as far as I am aware, this button is useless and doesn't open a page or link.

The platform is easy to use, and it's reliable.
