

PRICES AND EXAMPLES

for Shibara's artwork commissions

To ask for a slot, please read the [Terms of Service](#), and send a [commission form](#). ToS link includes what I do and don't draw, the queue system, how the commissioning process works, and a number of other details. **DO NOT REQUEST A SLOT BEFORE READING THE ToS.**

Payment is done in USD when I reach your specific slot (more information on the ToS link).

Progress on commissions can be tracked in the [Commission Progress List](#)

The following price list attempts to be as comprehensive as possible in order to hopefully answer most questions, but all commission quotes will be evaluated individually and may include elements beyond the scope of this guide. I'm *always* open to discuss quotes with no obligation of purchase.

➤ +60\$ - Add a character

❖ Waist-up (max dimensions 4000 x 4000 px)

➤ 160~300\$ - Base price may include simple clothing, interaction with small objects, and minimal or solid color background.

Higher complexity includes more complex clothing (ex: armor, elaborate gowns), interaction with more complex objects (ex: fragments of other characters, musical

instruments, pets), and a moderate complexity background (ex: interiors, moderately complex landscapes), or may extend depiction to mid thighs.

➤ +120\$ - Add a character

❖ Full-Body / Scene illustration (max dimensions 6000 x 6000 px)

➤ 220~500\$ - Base price may include simple clothing, interaction with small objects, and minimal (simple foliage, surface texture) or solid color background.

Higher prices involve a scene depicting your character in a complex illustration. Composition includes complex backgrounds, large elements, small background characters etc.

➤ +140\$ - Add a character (of same or similar size as the main character)

Note: For painted illustrations, commissioners may either ask for a quote, or provide a budget for me to work within.

Price Modifiers

- Backgrounds: The complexity of backgrounds affects the price of the commission.

- Character design: I can work without references but it will increase the price as it will require more effort and time. Same goes for complex anatomy or complex large details like tattoos, complex clothes, etc. This will be analyzed on a case-by-case scenario.

- Alternate versions: I am open to working on alternate versions of commissions (ex: clothed/nude, summer/winter coats, day/night etc). The extra fee for these will be calculated on the amount of changes made to the original image.
- Opting for a greyscale instead of colors will shave off 25% of the final price in any type of commission (except of course black and white sketches).
