-Though this MAP is based on the Showtime series Yellowjackets, I promise you don't have to have any prior knowledge. It's just based on a scene from the show that I thought fit the kitties and would be cute.

-Don't follow the storyboard exactly—it shouldn't be used as a sketch, just a rough idea of what should be happening in your part.

Art Direction

This MAP is based on a scene from and uses audio from Yellowjackets 1x09 'Doomcoming', hence the name and the "stupid party" mentioned in the audio. That's where the concept came from as well. After 17-year-old Van Palmer survives a wolf attack permanently scarring the left side of her face, her girlfriend, Taissa Turner, makes them matching masks for Doomcoming to hide her scars.

The character designs for Cloudtail and Brighthouse are below. If you'd like to use other characters, please use Gekkozilla's Warriors designs. If you cannot find a design for the character you'd like to do, please let me know and I can help you out.

Design Notes:

Cloudtail is poofy and round, Brightheart is sharp and pointy.

The left half of Brightheart's face is covered in moss bandages. You can make these as simple or complex as you'd like, as long as you get the idea across. A small bit of a scar is visible above her eye, and she has three large muzzle spots. The marking on the tip of her tail is shaped like a heart and she has a small tuft of fur on the tip of her intact ear.

Cloudtail's design is much simpler, so I don't have a lot to say about him. His tail is very poofy, one could even say cloud shaped.

The design for the masks is below.

← Highly simplified these

Design Notes:

You can make these as simple or as complex as you'd like as well, as long as you don't go much simpler than what's above.

Browns and oranges, two leaves on the side.

The art direction for the backgrounds is below.

Design Notes:

It's early November/late October. Autumn colors, much like the masks, browns, oranges, and yellows.

The only colors used for the backgrounds should be shades of orange, yellow, and red. You don't have to use the above image as a palette, and you shouldn't, I made it super quickly. It's just a basic idea of what they should look like. Maybe not quite as dark, again I made it pretty quickly.

I'm not super picky about what ThunderClan camp looks like. It's only in like two parts so it doesn't really matter. You can show me a sketch if you're not confident.

Shading guide is below

You can mess around with opacity, it's just a guide. Feel free to ask questions.
