

## **Interprofessional Team Members**

Within the mental health setting, Occupational Therapists work alongside a variety of healthcare disciplines. These disciplines include, but are not limited to:

- Behavioral Specialists
- Case Management
- Child Life
- Mental Health Partners
- Nursing
- Occupational Therapy
- Psychiatry
- Psychology
- Recreation Therapy
- Social Work

## **Specific Settings**

Occupational therapy may be present within the following facilities:

- Inpatient psychiatric facilities - adult or pediatric
- Community based programs
- Clubhouses
- Substance use treatment facilities
- Residential facilities
- Correctional facilities
- Homeless shelters

## **Dress code**

Dress codes are typically site specific, but generally the following parameters are accepted in most settings:

- Clothing
  - Business casual
  - Scrub top and scrub pants
  - Scrub pants with a plain shirt **OR** a shirt that represents the specific organization and/or occupational therapy
- Shoes
  - Clean, closed toed, and correctly sized
  - Must be appropriate to the work performed
- Accessories
  - Limit jewelry (bracelets, earrings, rings necklaces) and scarves as they may pose a safety risk to yourself and others
- ID badges
  - Must be worn, viewable, and accessible at all times (however, this is site specific)
