GEORGIA SOUTHERN UNIVERSITY KEYBOARD AREA
VIDEO AUDITION PROTOCOLS

1. All audition requirements remain the same as in face-to-face auditions.

2. The audition itself will be divided into two parts:

   a. Solo performance: students who are auditioning for GSU piano will submit videos of memorized performances of their pieces for the panel to observe. Videos may be uploaded to a hosting site such as YouTube or emailed directly to the keyboard area head, who will then share videos with members of the audition panel.

   b. Interview and Sight-Reading: a separate live Zoom meeting will be scheduled in which students who are auditioning for GSU piano will demonstrate sight-reading skills and will be interviewed by the audition panel. Sight-reading will be provided digitally to the student at this meeting. This section of the audition will be recorded so that audition panel members who are unable to attend can view and evaluate later.

3. Additional materials, such as letters of recommendation, may be submitted digitally to the keyboard area head.
