INTRODUCTION (bold uppercase, Garamond 12)

The introduction of the research contains the background, research problems, summaries of previous relevant studies, the gap analysis, and research objectives. The problem should offer a novelty value or benefit as an innovative topic. The reader needs to know the background of your research and most importantly why your research mattered in this context. In addition you can build an argument and provide original data to discussed and compared to your research and previous research. The data should be cite from the trusted website, book, article, etc.

The article submitted is of the author's original work that is plagiarism-free, and neither of which has been previously published in other scholarly journals or books. Articles published in this journal must comply with the article format, which is the style of this journal. Written in Garamond 12, with a single space. The author should cite the paper with Turabian 8th Edition Style using reference tool (Zotero, Mendeley, etc).

RESEARCH METHOD (bold uppercase, Garamond 12)

The research method describes research design, population, and sample (research objectives), data collection techniques, and data analysis techniques. Qualitative research with case studies, phenomenology, and others, at least present the research location, the presence of researchers, research

subjects, informants, and techniques to collect research data, as well as a description of the technical analysis of research data. Whereas in quantitative research, it is necessary to present the population, samples, and data analysis techniques. Written in with Garamond 12.

FINDINGS AND DISCUSSION (bold uppercase, Garamond 12)

Researchers need to inform several important (original) field data obtained from interviews, observations, questionnaires, surveys, documents, and other data collection techniques. The findings are presented in full and are related to the pre-determined scope of research. Findings can be supplemented with tables, graphs, and/or diagrams. Tables and figures are numbered and titled. Example:

Table : 1 Table title should be placed at the top

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data

Pictures, graphs, charts, schemes, or diagrams are numbered consecutively and the title below, with Book Antiqua 12;

Figure 1. Add the caption about

This section Is the part to describe and answer the research question of your paper. To explain the paragraph that followed by the number or point, please follow this rules ;

 - a. ...
 - 1) ...

CONCLUSION

The conclusion contains the short summary of the findings and discussion, presented briefly, narrative, and conceptual. Avoid using bullet and numbering.

The conclusion and recommendation of the author are given in this section and are consistent in using the term "Conclusion". The conclusion of the research should serve the urgent purposes of the study within this section. This can be followed by suggesting the relevant future studies.

REFERENCES

Reference entry is arranged in the alphabetical order. All that are referred to in the text must be listed in the reference list and all that are written in the reference list must be referred to in the text. It is advisable to use 80% journal articles as reference sources rather than books or proceedings. The author is obliged to list all the references in the valid way according to the original sources and DOI (digital object identifier), particularly for entries from journals. The author should cite the paper with Turabian 8th Edition Style using reference tool (Zotero, Mendeley, etc).
