

Virtual Dalcroze Meet-Up

Series 12 Schedule

Sept-Nov 2024

Scheduling and time zones

In order to reach as many of our colleagues as possible, some of the meetings and masterclasses are scheduled to permit the Asian and Australian communities to attend, while others include the European and African communities. Since the project is hosted in the Americas, those who are living in the Americas will be able to attend all events.

Want to automatically add the VDM events to your calendar?

You can subscribe to the VDM calendar at this [LINK](#). The calendar will display in your time zone.

Daylight Savings Time / Summer Time
