IMPORTANT NOTE: A mailing address is required so that AGSO can send Austra-Link, unless the Group opts to only receive an electronic copy. It is rare for other physical mail to be sent to a group. However, it is useful to have a mailing address as an extra means of contact if an email address or phone number changes. It is also very useful to have a second Group Contact as well as the Group Representative.

If no one in the group is able to email this form, please give it to your District Representative to email.

The Area Communications Co-ordinator will forward any changes in the form to the AGSO for web site updates.
