

The Mecca of Music in the Heart of Kentucky

Documentary

Maddie S
8th Grade

This documentary took several months to complete. I began by doing some research on Club 68 and Club Cherry in Lebanon, Kentucky because of all the stories I had heard about the famous people that came there to perform. My mom and I went all around our city getting pictures and video of anything that related to these clubs. I interviewed Elmer George at the new Club 68 Venue. Some people that had great stories to tell didn't want to be interviewed, but agreed to send me videos. When you get to talking to people they led you to other people that were able to give us information and pictures. The goal was to show how much of an exciting time it was in Marion County during this time period. It is hard to believe that all those famous people came to our little town. After we collected all the information, videos, and pictures, we started putting things together. The weather was bad for a while so we decided to use a Green screen to video the reporting part. We used a program called Do Ink on the ipad to make the video with the green screen. We used iMovie to edit everything together. After we added everything, it only seemed right to include some background music. It was lots of fun making this video. I hope you enjoyed it.
