“The Bjornson Education-Recreation Center is a 443 acre school forest owned by the School District of the Menomonie Area. The property was purchased in the early 1970’s from Ed Bjornson of the Spring Valley Lumber Company. Under the guidance of Dave Schiotz (Environmental Education Coordinator, 1971-96) the school district obtained matching grants through the Land and Water Conservation Department. For the past 33 years, the Bjornson Education-Recreation Center has allowed students of the Menomonie Area to experience the natural environment.”
