

## **Manifesto of the Red Party of Workers and Peasants**

Comrades, the Red Party of Workers and Peasants stands as the unwavering vanguard of the proletariat and the oppressed masses. In the face of imperialist aggression, capitalist exploitation, and bourgeois tyranny, we raise the banner of the revolution high, guided by the immortal teachings of Comrade Marshall. The power of the state must be seized by the workers and peasants, and through iron discipline, collective effort, and the annihilation of reactionary forces, we shall construct a socialist state where the fruits of labor belong to those who toil.

Our mission is clear: to eradicate the parasitic capitalist class, to nationalize all industry and agriculture under the control of the people, and to march inexorably towards a classless, stateless society where every comrade contributes to the greater glory of the collective. In unity and strength, we will defend the revolution, crush the enemies of the people, and build a future where workers and peasants are the masters of their destiny. Long live the Red Party! Long live the triumph of socialism!
