--

Good [*morning, afternoon, evening*]! My name is [*your name*], and I am a [*survivor, provider, program director, ally, etc.*].

I am calling to ask for your support for **amendment #240** which would fund **MOVA's TRUST Line** initiative. This \$13.8 million dollar line item would help stabilize essential victim service programs in every county of the state and ensure that access to high-quality, trauma-informed services remain accessible amid federal funding reductions and recent federal actions. Importantly, this funding will implement targeted support for our most vulnerable service providers and offset significant cuts all programs are currently facing.

[Detail how MOVA funding has been important to your community/program, how funding reductions will impact your community/program, how targeted federal actions have impacted your ability to provide/receive services or, if you have a story you feel comfortable sharing, share your experience. Be specific if you're a program, including reduction amounts/percentages, what is at stake without state support, and how your grant would change if the full \$13.8M was allocated].

I respectfully ask you to support survivor services by supporting **amendment #240 to fund the TRUST Line**. Thank you for your time and thank you in advance for your support of survivors in Massachusetts.
