

HOME LOVE

Inspired by one of my favorite Instagram art teachers, Mrs. Chambers. Give her a follow @2art.chambers for lots of great ideas!

- Take a paper, whatever you've got, and fold it in half.
- On the bottom write the word HOME in big, bold block or bubble letters and add some hearts.
- On the top half, draw your home. It could be an outside view from observation (looking at what you're drawing) or from your memory. You can even draw an inside view of your bedroom or couch, whatever HOME looks like to you!
- Add some color! Use crayons, colored pencils, markers or paint. You can use realistic colors or have some fun. (My house isn't really green, but it's my favorite color and I wanted to try it out!)
- Share with me! Have your parents snap a pic and email it to me!
