

Hi. Tiktok has just started blocking the click-to-send email links in my linktree (FRUSTRATING!) so you'll have to copy and paste <https://tinyurl.com/boycottwalgreens> into your browser and that will work. (You can't just click on it. Must copy and paste into a browser).

OR if you want to write an email manually here are the email addresses and the letter I sent (don't forget to personalize!):

TO: lisa.badgley@walgreens.com, rick.gates@walgreens.com,
wcrexecresponse@walgreens.com

Subject Line: Abortion pills

To the Leadership Team at Walgreens,

I'm writing as a mom and a concerned American because I'm appalled that, due to pressure from Republican Attorneys General, Walgreens has chosen to stop selling abortion medication in 24 states. Some of those states, like Alaska, Kansas, Iowa and Montana, still have legal abortion. This decision to put your corporation's benefit above the health and well-being of your customers is cowardly and appalling. Women and other pregnant persons will be placed in horrible and even dangerous situations because you choose not to help when you could.

Also? I'm aware from reading Popular Information that Walgreens has donated \$80,030 to the Republican Attorney Generals Association (RAGA) and \$123,500 to 39 members of Congress who received a failing grade in the latest scorecard from NARAL Pro-Choice America. This group includes 12 co-sponsors of the Heartbeat Protection Act of 2021, a bill that would ban abortion nationwide after 6 weeks — before many women know they are pregnant.

As far as I'm concerned your recent actions, combined with your generous donations to anti-choice politicians, prove that Walgreens stands against reproductive freedom. That means it actively opposes the health and well-being of over half of America. For a "healthcare company" this is shameful.

Until you reverse your decision and cease making political donations to anti-abortion politicians I will stop shopping at your stores and encourage others to do the same.

Sincerely,

[Name]
{City, State}
