

Ozobot School: Performance Task

Group Member Names:

Congratulations, you have been hired as a teacher by Ozobot School to teach Ozobot some important skills to get it prepared to get the best job ever! You will use Ozoblockly to teach Ozobot 5 different skills that will help it get an amazing job. Draw a picture or sketchnote each of these skills and have Ozobot travel to each skill. Will Ozobot graduate and get the job of its dreams?

Follow these steps:

1. IDEATE!! This is a fancy word for brainstorming.
Use the table to record your ideas about important skills. There is an example below.

Put at ★ next to 5 skills that you would like to teach Ozobot.

Important Skills	Choose your top 5 ★
Listening to my group member's ideas	

2. DRAW or SKETCHNOTE your skills on a piece of poster paper. Be sure to include a drawing showing Ozobot completing its education.
3. CODE using Ozoblockly to have your Ozobot travel & master each skill. Be sure to include code at the end that will celebrate Ozobot completing its education.

Challenge yourself to include some cool code such as including light effects and sounds (such as numbers). See the example of sample code for some inspiration <https://ozoblockly.com/editor#ixsyo7>

4. TEST out your code. Does your code work? You can add to your code or debug (fix a problem in coding) if you need to.
5. SHARE. Get ready for others to try out your code and train their Ozobot
6. Complete reflection (individually). You can show off your work on Flipgrid or write a reflection in your journal.

Assessment of Ozobot School

Name:

	Outcomes Not Met (needed support)	Met Outcomes (acceptable)	Exceeded Outcomes	Comments:
Able to ideate				
Demonstrated coding skills				
The reflection was insightful				
Had a growth-mindset (able to problem solve and persevere)				
Able to work cooperatively with a group				

Ozobot School: Reflection Sheet
