

Grade 1 Module 4 Topic F Lessons 23-25 Quiz

1. Solve using number bonds with pairs of number sentences. You may draw quick tens and some ones to help you.

<p>a. $15 + 19 = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p>	<p>b. $19 + 17 = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p>
<p>a. $17 + 14 = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p>	<p>a. $17 + 17 = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p> <p>$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$</p>

2. Solve. Use any method to show your thinking: quick ten drawings, number bonds, or the arrow way.

<p>a. $16 + 15 = \underline{\hspace{2cm}}$</p>	<p>b. $17 + 13 = \underline{\hspace{2cm}}$</p>
---	---

c. $16 + 16 =$ _____

d. $17 + 15 =$ _____

a. $23 + 12 =$ _____

a. $19 + 21 =$ _____

a. $17 + 12 =$ _____

a. $17 + 16 =$ _____
