Diamonds, Emeralds and Coal can be turned into nuggets in Technological Expanse. The coal to nugget ratio is 1:4 instead of 1:9.

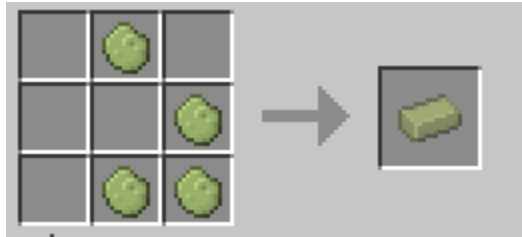

Toxic Block. The center block in the recipe is a block of Processed Silicon.

Place 9 toxic blocks in a 3x3 flat grid to make the portal to the Toxic Dimension.

Catalyst Chip

Right click the middle toxic block with this to activate the portal. When going into the toxic dimension, make sure to bring an extra catalyst chip!

Rich Stone Brick.

Rich Stone Pieces (left) are found in structures on the surface of the Toxic Dimension.

Mid-Tier Enhancer

Mid-Tier Smasher

Electrode

Can be right-clicked to teleport to the Binary dimension, 10 uses.

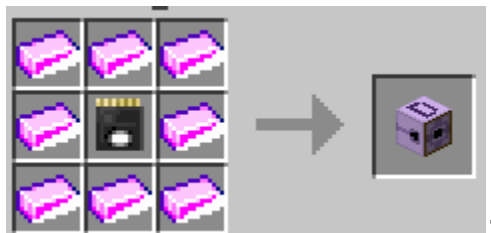

High-Tier Smasher

Any High-Tier machine can be put in a crafting grid with Mythium to make its Top-Tier version like this.

Top-Tier Crystallizer

Top-Tier Disintegrator

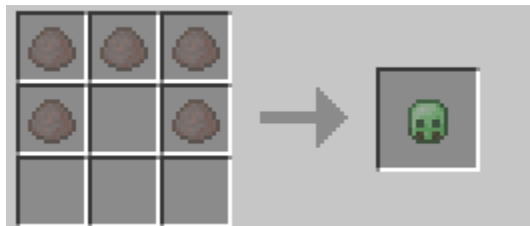

Quintuples ores.

Top-Tier Processing Chip

Sapphire in a brewing stand with bottles of water makes the Filter Potion, which can be drunk to negate many potion effects and the Toxic Dimension's life drain while active.

A full set of hazmat armor can be worn to protect from the Toxic Dimension's life drain.

The steel set of armors and tools has higher durability and power than iron, as well as providing fire resistance with the full set worn.

The platinum set of armors and tools has good speed as well as a swiftness & jump boost effect with the full set of armor worn.

The titanium set of armors and tools has great durability and power, as well as knockback resistance.

The unobtainium set of armors and tools has great power and speed but moderate durability. Wearing the full set of armor will grant you Night Vision.

The mythium set of armors and tools has incredible stats. Wearing the full set of armor grants you a myriad of beneficial effects.

1 Crying Obsidian - 25% chance for 1 Ender Pearl, 75% chance for 8 Cobblestone

Obliterator

Any ore block - 3 of its respective ore lumps

Any shard - Its respective lump

1 Redstone ore - 8 Redstone

1 Lapis ore - 8 Lapis

1 Stone - 1 Gravel

1 Cobblestone - 1 Sand

Alloyer

1 Speed Component, 1 Power Component, 1 Storage Component - 1 Ultimate Component

1 Ruby, 1 Sapphire, 1 Amethyst - 1 White Gem

3 Platinum, 2 Titanium, 1 Unobtainium - 1 Dormant Mythium

2 Processed Lithium, 1 Supercharged Gold, 2 Processed Rich Stone - 2 Batteries

1 Ultimate Component, 1 Dormant Mythium, 1 White Gem - 1 Mythium

Disintegrator

Any ore block - 5 of its respective ore shards

1 Redstone ore - 12 Redstone

1 Lapis ore - 12 Lapis

1 Stone - 1 Sand

Crystallizer

1 Ruby, 3 Blaze Powder - 1 Fire Crystal
1 Sapphire, 8 Snowball - 1 Ice Crystal
1 Amethyst, 3 Gold - 1 Power Crystal
