

## A Laurel for Baroness Dobroshka Iz Oka

Spring marches north, melting frost as she goes.  
Water's trickle rouses Earth to wake.  
The potter shapes cold clay into curving vessel  
Then coaxes flame to her will  
To preserve her labor for the ages.  
We call Dobroshka Iz Oka  
Scholar, artist, teacher, traveler, host.  
She graces us with cups as beautiful as the life giving water  
That flowed into, and then out of, the very clay her magic transforms.

On March 15th, A.S. LVI, Eckehard Rex and Jane Regina, Rightful Monarchs of Atlantia, did induct Baroness Dobroshka Iz Oka into the Order of the Laurel and secure her Letters Patent at Gulf Wars in the welcoming lands of Gleann Abhann.
