

Job Title: Secondary Installer / Roller Person – Wetpour Installation Team

Location: UK Wide (Travel Required)

Salary: Competitive (Based on Experience)

Job Type: Full-Time (Includes Overnight Stays)

Job Overview:

We are seeking a dedicated **Secondary Installer / Roller Person** to join our **Wetpour Installation Team**. This role is essential in ensuring the smooth application and finishing of Wetpour surfaces. The position involves working closely with the team leader installer to achieve high-quality results, including using rollers to compact and level the surface. Due to the nature of the work, applicants must be willing to travel extensively and stay overnight when required.

Key Responsibilities:

- Assist in the installation of wetpour surfaces, ensuring a smooth and even finish.
- Operate rollers and other tools to compact and level materials.
- Support the lead installer with material preparation, mixing, and application.
- Work efficiently to meet project deadlines while maintaining high quality.
- Handle and transport materials, including rubber granules and polyurethane binders.
- Maintain a clean and safe working environment.
- Travel to various sites across the UK and stay overnight when required.
- Adhere to all health and safety guidelines and company procedures.

Requirements:

- **Willingness to travel** extensively and stay overnight as needed.
- **Physically fit** – the role involves manual labour, heavy lifting, and working outdoors in varying weather conditions.
- **Driving license (preferred)** – due to the nature of the role and travel requirements.
- **CSCS Card (preferred but not essential)** – training can be provided.
- Ability to follow instructions and work well within a team.
- Punctual, reliable, and hardworking.
- Previous experience in construction, surfacing, or groundworks is advantageous but not essential.

Opportunities for Progression:

This role provides a pathway to becoming a **Lead Installer**, gaining advanced skills in wetpour surfacing, including:

- Mastering the techniques of laying and finishing wetpour surfaces.
- Operating specialist tools and equipment effectively.
- Developing leadership and project management skills.

Benefits:

- Competitive pay with overtime opportunities.
- Accommodation and travel expenses covered for overnight stays.
- Career progression within the company.
- Training and development provided.
- Work as part of a supportive and professional team.

If you have a keen eye for detail and are looking to develop your career in **wetpour surfacing**, apply today and become part of a skilled and growing team!
