

1. "The app is fast and easy to use. Love the variety of restaurants!"
2. "Delivery times are often longer than estimated. Please improve accuracy."
3. "I wish there was an option to schedule orders in advance."
4. "The customer service is excellent, always helpful when I have issues."
5. "App crashes frequently on my Android phone. Needs better stability."
6. "Love the loyalty points system, keeps me coming back!"
7. "Prices seem higher than ordering directly from restaurants."
8. "It would be great to have a filter for dietary restrictions like gluten-free or vegan."
9. "Sometimes my order arrives incomplete. Need better quality control."
10. "The map tracking feature is fantastic, love watching my order approach."
11. "App is slow to load menus, especially during peak hours."
12. "Would appreciate more detailed restaurant ratings and reviews."
13. "The in-app chat with delivery drivers is super helpful."
14. "Often can't modify items in my order. Need more customization options."
15. "Photo previews of dishes are inconsistent. Some restaurants have none."
16. "Great deals and promotions, but they're hard to find in the app."
17. "Would like an option to tip the restaurant staff separately."
18. "App doesn't remember my preferences. Have to re-enter every time."
19. "Love the variety, but would like to see more local, non-chain options."
20. "Payment process is smooth and secure. Appreciate the multiple options."
21. "Notifications are excessive. Need better control over alert settings."
22. "Search function needs improvement. Hard to find specific cuisines sometimes."
23. "Would love a feature to split the bill with friends for group orders."
24. "App should show calorie information for menu items."

25. "Delivery radius is too small in my area. Please expand!"
26. "Great interface, very intuitive and easy to navigate."
27. "Prices fluctuate too much. More transparency on surge pricing needed."
28. "Would appreciate an option for eco-friendly packaging."
29. "App freezes when I try to apply promo codes. Very frustrating."
30. "Love the 'reorder' feature for my favorite meals. Big time-saver!"
31. "Need better filtering options for price ranges."
32. "Sometimes drivers can't find my address. Improve GPS integration?"
33. "Would like to see nutritional information for menu items."
34. "App doesn't work well with screen readers. Needs accessibility improvements."
35. "Great selection of international cuisines!"
36. "Wish I could add special instructions for the restaurant more easily."
37. "App should remember my payment info securely. Tired of re-entering."
38. "Love the feature showing popular items at each restaurant."
39. "Need an option to rate individual menu items, not just the restaurant."
40. "Would like to see estimated preparation times for each restaurant."
41. "App should integrate with fitness trackers for calorie counting."
42. "Sometimes items are listed as available but turn out to be out of stock."
43. "Great customer support through the app when issues arise."
44. "Wish there was a way to see which restaurants use sustainable practices."
45. "App should offer voice command features for hands-free ordering."
46. "Love the dark mode option, easy on the eyes at night."
47. "Need better order grouping options for office/large group orders."
48. "Would appreciate a feature to suggest new restaurants based on my order history."

49. "App should show busiest times for each restaurant to help plan orders."

50. "Delivery fee structure is confusing. Need more transparency on costs."
