

Know Your Supplement Quality

Have you seen INFO concerning supplement quality? Not all supplements are the same. You would never take the ingredients in some supplements with your knowledge.

This supplement is the Lamborghini of protein supplements, barr none !!!

The only supplement studied with human subjects and Clinical Proof! Link below.

90 day money back guarantee.

Company in business 65+ years.

There are multiple steps to learn before ordering this supplement.

We will be learning much information. Why? Because we need to understand the problem before being offered a possible solution.

Understanding the Problem

We aren't getting whole food nutrients. Chronic diseases such as heart disease, stroke, Alzheimer's, Parkinson's, ALS, dementia, diabetes and cancer are at an all time high. No decrease in sight.

Therefore, we must take supplements, not just any supplement, if we wish to help End the Trend. We could possibly reduce heart disease, stroke, diabetes and/or cancer when our immune system is at optimum performance.

Evaluate Your Supplements. Here are 5 Key Criteria that set the gold standard. YouTube 10 minutes <https://youtu.be/0kZjKAcr-sM?si=cossILc0GsAtVNCK>

I'm surrounded by individuals that are licensed and certified nutritionists. Some have degreed as medical doctors - MD & many have degreed PhD. None are diagnosing diseases and making claims that they have cures. They're simply educating us. Make your own decision based on research and due diligence. Hopefully, you get the correct information.

This group has been on this path for more than 60 years. That doesn't mean they're 100 percent correct. But if the powers that exist in this country (FDA) could find reason to close their doors, they would do so in a heart beat. Therefore, no one is making claims to cure chronic diseases such as heart disease, stroke, diabetes or cancer. But we've seen evidence for the reversal of such in some individuals, not everyone. More than just nutrients contribute to our wellness. A belief system is needed. Community is needed. Your environment is a factor. Begin educating yourself, so you could make a well informed decision. I have listed 10 Steps.

Step 1 Five Criteria for Evaluating a Supplement YouTube 10 Minutes
