German 1A

Course Description:

In German 1A, students will begin their language-learning journey by gaining the skills needed to talk about themselves and their immediate environment. Students will learn to introduce themselves, share some basic personal information, talk about their family and friends, discuss what they like to do for fun, and describe their daily routine at home and school. The class takes a highly communicative approach and utilizes the 5 C's of language learning - communication, cultures, connections, comparisons, and communities. A heavy focus is put on German-speaking cultures around the world, with grammar being learned indirectly through various activities. Throughout the 8 units, students' language learning is guided by Can Do statements which focus on specific language abilities, such as "I can greet others and introduce myself."
