

## Preparation and Submission of Assessments

### Schedule of work

Approximate deadlines are given below. Please note actual dates for submission may vary – please check the individual list for your year group.

OCSA	Specified date in February in Year One
CPR1 ACC1	Specified date in April in Year One
ACC2	Specified date in September in Year One
CPR2 SAQ1	Specified date in October in Year Two
ACP (single case or service evaluation)	Specified date in October or April in Year Two
CPR3 ACC3	Specified date in April in Year Two
ACC4	Specified date in October in Year Two
ACP (single case or service evaluation) CPR4 SAQ2	Specified date in October in Year Three
ACC5 ACP (if outstanding)	Specified date in March/April in Year Three
Thesis	Last working day of May in Year Three
ACC6	Specified date in September in Year Three
Record of Dissemination Activity (RDA)	Specified date in September in Year Three

Please note that only one ACP (single case or service evaluation) should be submitted for any one deadline.

The Programme may alter any of the individual deadlines provided trainees are given sufficient (i.e. 4 weeks) notice beforehand.

Deadlines for ACP - Single Case Experimental Design Study Trainees are strongly recommended to attempt to collect their single case data during clinical placements

1 or 2, even if they do not actually submit the clinical work conducted. We do not recommend that you attempt to collect data for both ACPs in a single placement since this might squeeze out routine clinical work and deciding too early on your service evaluation methodology might constrain the methods available to you for your research thesis (see Procedure section for ACP-Service Evaluation Project).

Deadlines for the Research process are provided separately and will be available on Blackboard.
