Reiki

Reiki is an energy healing technique that promotes relaxation, reduces stress and anxiety through gentle touch. Energy is transferred to your body, improving the flow and balance of your energy to support healing. Reiki works on the entire self – mind, body and emotions – and because it is universal life force energy, reiki may be successful in all types of physical, emotional, mental and spiritual healing. Soothing the nervous system to promote all levels of healing and health.

Add \$50

Sound Bath or Sound Therapy

Concern Addressed: Your skin is the largest organ and when you're stressed or run-down, not sleeping enough or eating well, this shows up on your face. The impact of stress occurs because the body uses its energy "fighting or flighting" from impending danger and the skin's health becomes low on the priority list - causing dryness, dehydration, inflammation and sensitivity as well as decreased collagen and elastin. By incorporating sound you can regulate the fight-or-flight response and reduce stress – which ultimately will serve your skin well

Sound Bath / Meditation Details: Skin-nourishing treatments turned into a multi-sensorial, mindful activity. Through a process called entrainment, it also works to slow down your brainwaves so you're able to mentally switch off, helping you feel rested and better able to deal with any stress that might arise Add \$50
