The Story of McDonalds

In 1937 the McDonalds brothers, Dick and Mack, opened a little drive-in restaurant in Pasadena, California. They served hot dogs and milk shakes there.

In 1945 they had 20 waiters and all the teenagers in towns ate hamburgers at McDonald's.

In 1948 they already got paper boxes and bags for the hamburgers. They put the price down from 30 cents to 15 cents. They cut the menu down from 25 things to 9. There are no more waiters – it is self-service. So it is cheaper and faster. And they have windows all around the kitchen – so everyone can see it's clean. Parents started bringing their children to the restaurant. Poor families ate at McDonald's for the first time.

The idea of simple , fast, but tasty food appeared to be successful, and in the 1960s the McDonald's company opens hundreds of restaurants all over the States. In the 1970s they opened restaurants abroad: in Japan, Germany and Australia.

At present the McDonald's company opens a new restaurant every 8 hours! There are more than 30,000 restaurants in over 90 countries. The largest restaurant is in Beijing in China and the smallest in Ginza, Tokyo. The northernmost restaurant is in Fairbank, Alaska and the southernmost is in Gibson, New Zealand.

McDonald's restaurants serve almost the same food in every country. But in Italy they serve beer, in Norway the McLak (salmon burger) and in the Netherlands the vegetarian Groenteburger!
