NOTE: When I picked the five per game, I only engaged in so much "self-indulgence", and none of it as an end in and of itself, but mostly stuck to tracks that I thought would be likely to land with Jesse. In some cases, of course, that meant getting to indulge myself where I thought my favs would be his favs too, such as Ninja Gaiden 2, Actraiser, Symphony of the Night, and

others. But it also meant leaving out tracks that were personal favorites, but that I didn't think would be a hit with him, such as "Esto Gaza" from Final Fantasy IX or "Lurking in the Darkness" from Final Fantasy VII, etc. Of course, the consolation for me there is that most of those kinds of tracks have already appeared on past episodes. :-)

This is also the workspace I used to construct the final track list. :-)
