

Unofficial (Grassroots) Draft Core Founding Documentation of Your Party UK

1. Political Statement (The Vision)

Your Party UK rises now to reclaim the public's inalienable right to govern its future. Our political culture has long privileged party bosses, narrow elites, and electoral choreography; local communities are unheard, Members have no real input, and Westminster politics has lost both legitimacy and knowledge.

We are changing that by making **Deliberative Democracy Assemblies (DDAs)** the highest decision-making power in our movement—and, through winning seats in local councils and Parliament, the avenue by which citizens' considered judgments directly shape law and policy.

We will contest local council seats in the next election cycle, pledging that every councillor we elect acts purely as a **DDA Delegate**. At our **second national conference in April 2026**, preceding the UK Local Elections, we will finalise and ratify this new institutional architecture.

Transparency is non-negotiable: every deliberation, every mandate, every expert briefing will be openly published. Only when the full process is visible can trust be built, corruption avoided, and citizen agency guaranteed. **Your Party UK is not about personalities, it is about you, deliberating, choosing, and acting together.**

2. Constitution (The Structure)

- **Executive Stewards:** 12-month term; manage legal compliance, finances, and logistics; no policy power; recallable by 70% of the relevant DDA.
