

**Hello Parents and Students,**

This year I will be using texting to help get information out to parents and students. If you would like text reminders for class information and events, tests, quizzes, please follow the steps below.

**1. Please send a text message to  
23559 -**

**2. the text message should say -  
@TaylorAday**

- **Using Celly actually keeps your number private. I will never see your cell phone number** and you will not see mine.
- Celly uses texting so “dumbphones” can play as well.
- If you do not have texting on your phone,
  - You can access the messages through the Celly website [cel.ly](http://cel.ly) - use this link to get to my specific @TaylorAday celly <http://cy.tl/18ngGEB>
  - ipod app
  - android app
- You will also be able to send messages back to me through celly.

This texting service is called Celly. It can be found online at Cel.ly - I will only send one text a day. You will be able to reply to the text to ask questions.

This is just one of the ways I plan to increase communication with parents and students.

Standard text messaging fees apply, unless you download the Cel.ly app to your smartphone.
