QUESTION 1

Should the Constitution of Virginia be amended to (i) protect the freedom to make personal decisions about prenatal care, childbirth, postpartum care, birth control, abortion, miscarriage management, and fertility care; (ii) protect doctors, nurses, and patients from being punished for these decisions; and (iii) allow for restrictions on access to abortion during the third trimester of pregnancy except when the patient's health is at risk or the pregnancy cannot survive?

THIS AMENDMENT:

- IS SIMPLE AND REASONABLE**
Virginia is a Commonwealth made up of all different kinds of people, and this amendment is reasonable with common-sense protections that most Virginians agree with. It's a simple measure that protects our freedom to make decisions around pregnancy – including birth control and abortion.
- PROTECTS A RANGE OF REPRODUCTIVE FREEDOMS**
Contraception/birth control, fertility, prenatal care, abortion, miscarriage management, childbirth, and postpartum care needs.
- STOPS GOVERNMENT INTERFERENCE**
This amendment prevents Virginia politicians from taking away our freedom to make our own health care decisions. We can all agree that when it comes to what we do with our bodies, decisions should be up to us, not politicians.
- ENSURES OUR RIGHTS LAST**
This amendment lets Virginians, not extreme politicians, have the final say. It ensures our rights are protected, no matter who is in office or what the politics of the day are so future politicians cannot take away our rights with the swipe of a pen.

THE BOTTOM LINE
At no point is a politician more qualified than a patient and their doctor to make personal decisions about pregnancy. This amendment simply keeps politicians out of the doctor's office, so the people actually involved can decide what's best.

Ensure our Freedoms

✓YES Repro Freedom Ensures access to reproductive health care. Virginia stands alone in the South—the only southern state with abortion access after 12 weeks. This amendment will protect everyone's freedom to make personal decisions about their reproductive health care—including access to contraception, IVF, miscarriage care, abortion (through the 2nd trimester), and will protect providers who deliver that care. MORE INFO VoteYES.us 	✓YES Marriage Equality Protects the freedom to marry who you love. The freedom to build a life, raise a family, and love who you love. The Marriage Equality Amendment will remove an outdated ban from our state constitution and ensure that two adults may marry regardless of sex, gender, or race. This will give every Virginian the same rights, protections, and dignity—no matter who they are or who they love. MORE INFO VoteYES.us 	✓YES Voting Rights Restores the right to vote after serving time. 300K eligible voters in Virginia are disenfranchised. Currently, Virginians convicted of a felony automatically lose their right to vote, even after they've served their time. This amendment will restore those rights automatically upon release. After serving their time, all returning citizens deserve to be welcomed and fully reintegrated into society, including having the right to vote. MORE INFO VoteYES.us
