

Computer Requirements

This document outlines the technology requirements for your Mountain Heights Academy courses.

All students must have:

- ☐ An up-to-date computer
- ☐ Reliable, high-speed internet access
- ☐ Speakers
- ☐ A microphone or headset
- ☐ A webcam
- ☐ The [Chrome browser](#)

Reminder: Students may not use phones, tablets, or mobile devices as their primary means of accessing courses. Mobile operating systems and their associated apps will not work for all aspects of courses.

Are you using a school Chromebook?

You do not need to install anything; just log in using your Mountain Heights Academy email address and password. You should periodically [check for updates](#) to ensure that you're using the latest operating system.

Using a personal PC or Mac?

Mountain Heights Academy courses are cloud-based. This means you can access your classes and work on them from any computer.

If you're using a computer with multiple users or accounts (e.g. a personal or family member's login), we recommend that you [create a new Google profile](#) for your Mountain Heights Academy account as you'll need to be signed into that to access your course resources and assignments.
