SUMMARY

Experienced Software Engineer with 5 years of experience, currently at Empower as a Full Stack Engineer under contract. Specializing in building scalable microservices using Java Spring Boot and front-end applications with React. Adept in Java, JavaScript, and customer support, bringing a robust background in full-stack development and stakeholder engagement.

WORK EXPERIENCE

Empower

July 2025 – Present

Full Stack Engineer | Contract

Remote

- Design, develop, and maintain scalable backend APIs using Java and Spring Boot.
- Design and develop responsive, user-friendly interfaces that expose tools to internal developer users.
- Assist in the conversion of Pro*C modules to Java Spring Boot.

Vertafore

May 2023 – July 2025

Software Engineer 2

Denver, CO

- Built scalable microservices using Java Spring Boot.
- Built frontend applications using React.
- Provided support to customers and stakeholders.

Amazon

August 2021 – January 2023

Software Development Engineer 1

Denver, CO

- Developed and supported on-device software applications for Echo devices, tablets, and E-Inks for product demos.
- Developed and supported cloud software in AWS to support product demos.
- Participated in on-call rotation to support stakeholders and customers.
- Collaborated across teams to develop, design, and bring to market devices and services.

Amazon

May 2020 – August 2020

Software Development Engineer Intern

Denver, CO

- Built a highly scalable and fault tolerant service in AWS to reset the cloud settings of Alexa devices.
- Coordinated across teams to build the project from the ground up.
- The service outperformed the rest of the system in its ability to scale.

University of Central Florida

May 2019 – October 2020

Web Developer

Orlando, FL

- Supported professors' online course development and design.
- Built and supported applications for students, professors, and for UCF internal use.
- Built two learning games that integrated with UCF's online learning platform, Canvas.
- Contributed to a Python API for the same learning platform.
- Designed and implemented the database for an internal course management dashboard using Sequelize ORM.
