

Cha Cha Cha (3 or 4 partner)

This is a unique tournament format played with threesomes or foursomes. Each player enters their gross score per hole and tees played.

On Hole 1, the best ball(net) of the group is the team score.

On Hole 2, the sum of the best 2 balls(net) of the group is the team score.

On Hole 3, the sum of the best 3 balls(net) of the group is the team score.

The process then repeats so that we count the best ball on the 4th hole, best 2 balls on the 5th hole, best 3 balls on the 6th hole and so on.

Teams will play against all other teams in the field based on handicaps. Golf Genius will score the game using the latest handicaps, account for the Net Double Bogey rule, and post the individual scores to GHIN. Review the sample scorecard below for the acceptable format. Check on the Golf Genius Portal next day for competition results.
