

Naturalis Energy Development Limited

Earlsburn Wind Farm Extension

Further Environmental Information (FEI) Report

Volume 4: Technical Appendices

663544

FEBRUARY 2025

RSK

RSK GENERAL NOTES

Project No.: G/P/663544(G)/09/03/FEI/02

Title: Earlsburn Wind Farm Extension: Further Environmental Information (FEI) Report
Volume 4: Technical Appendices

Client: Naturalis Energy Development Limited

Date: February 2025

Office: Glasgow

Status: FINAL

Author Lewis Gourlay

Date: 24/01/2025

Technical reviewer Joe Somerville

Date: 24/01/2025

Project manager Adam Paterson

Date: 07/02/2025

CONTENTS

Chapter 5 – Construction, Operation and Decommissioning

Updated Technical Appendix 5.1: Schedule of Environmental Commitments

Chapter 6 – Landscape and Visual Impact Assessment

New Technical Appendix 6.1: Methodology

New Technical Appendix 6.3a: Landscape Sensitivity – Landscape Character Type 1

New Technical Appendix 6.5: A811 & A873 Wirelines

New Technical Appendix 6.6: Illustrative Views

New Technical Appendix 6.7: Effects less than Moderate

New Technical Appendix 6.9: Residential Visual Amenity Assessment

New Technical Appendix 6.10: Comparison of Effects with EIAR

Chapter 7 – Ecology

New Technical Appendix 7.3: Peatland Condition Assessment & Outline Habitat Management Plan and Target Notes

Figures supporting Technical Appendices

Figure 7.3.1: Habitats

Figure 7.3.2: Peat Depth Data

Figure 7.3.3: Peatland Condition Assessment

Chapter 8 – Ornithology

Updated Technical Appendix 8.2: Bird Collision Risk Model Results

Chapter 9 – Geology, Hydrogeology, Hydrology and Peat

Figures supporting Technical Appendices

Updated Figure 9.1.1: Slope Mapping

Updated Figure 9.1.2: Geomorphological Mapping

Updated Figure 9.1.3a: Peat Depth Overview

Updated Figure 9.1.3b: Peat Depth Detail

Updated Figure 9.1.4: Likelihood Rating

Updated Figure 9.1.5: Consequence Rating

Updated Figure 9.1.6: Risk Rating

Naturalis Energy Development Limited

Earlsburn Wind Farm Extension: FEI Report, Volume 4: Technical Appendices

663544

Updated Figure 9.4.1: Potentially Groundwater-Dependent Terrestrial Ecosystems
Updated Figure 9.5.1: Watercourse Crossing Locations

Chapter 11 – Noise and Vibration

New Technical Appendix 11.3: Stage 1 Road Safety Audit
New Technical Appendix 11.4: A811-Touch Road Junction Modelling Report

Chapter 12 – Noise and Vibration

New Technical Appendix A12.1: Noise Survey and Modelling

Chapter 15 – Other Issues

Updated Technical Appendix 15.1: Carbon Calculator
