

5 WAYS TO HELP YOUR FRIENDS EVERYDAY

1. Wall Charger Requests
2. Friend Wish List
3. Friend Tipping
4. Collection Items
5. Energy (FB game only)

1. WALL REQUESTS AND GIFTING:

First check your Wall requests to make sure you are sending what they have asked from you before visiting their cities. You should be sending your friends charger items every day or as often as possible.

Tip: New players have limits (experience level) on what they can send, so be careful when requesting “chargers” and pay attention to their experience level and the level required to give the gift.

Tip: If someone sends you a “collection item” from their inventory you should always visit their Wall and leave a thank you note.

This is for 3 reasons.

- The gifter wants to know that you appreciated the gift.
- the gifter wants to make sure you received the gift, as sometimes glitches cause gifts to be lost in cyberspace.
- the gifter may have spent real money to get the items to send to you so this is confirmation you received the gift.

2. FRIENDS CITY/WISHLIST:

You should be visiting your friends’ cities as often as possible to see what they have on their wish list. You have 50 slots per day for “charger items” to send, unless you pay 10 crystals for 50 more slots. But you can only send 1 per day per person.

This is why it is best to only have around 50 game friends.

There will be times that you don’t have the item they are asking for, or the charger item they need may be above your gifting level. It is certainly okay to gift an alternative gift.

There are many useful gifts to send as alternatives that everyone will need in the game. Samples include, Colored Paper, Jar of Glue, Festive Ribbons, Lollipops, Amethyst Magnifier. If you send out 50 “chargers” per day, you will receive 50 “mystery gifts” back per day as a thank you gift.

There are many times that players cannot send you a request to your Wall for items that they need. This is why it is important to visit your friends cities and wish lists to see what you might be able to help with.

3. FRIEND CITIES/ENVELOPES/TIPPING:

While visiting your friend be sure to click on locations/envelopes. You will need to do a minimum of 2-6 per friend (depending on your level) to receive the rewards. However, when you do this for your friend you are helping them the next time they search that location depending on what your game profile shows as your profession:

- Lucky Dog profiles give increased chance of finding items.
- Banker profiles give increased Gold Coin.
- Investigator profiles give increased Experience Points.

AND as a bonus for tipping you will get rewards of Gold and Experience and sometimes search keys like Library Books, Candles and Nets.

4. COLLECTION ITEMS:

You are limited to 10 slots for “collection items” per day unless you pay 10 crystals for 10 more slots. These slots can be used for sending a collection item on a wish list and/or ping ponging items back and forth. With only 10 slots per day, use them wisely and resist the urge to send a random gift that the friend has no use for. If time allows you, check your friends collection items to see if you may have an extra of something they are missing, this is an extra step that your friend will very much appreciate.

ALSO: if you see your friend has extra items of something you need, it can be perceived as bad game manners to outright ask for an item without offering something in trade. If you need a collection item feel free to post on the forum what you need one and those that have many extras will be more than happy to share.

5. ENERGY (FB Game only):

You should be sending Energy to your friends every day or as often as possible. To gift energy click on the energy envelope in the upper right hand corner of your game. This will send them 2 energies. When they receive it into their game you will get one back!

These 5 actions should be part of your daily gaming routine.

Everyone understands that it is just a game and that life and family come first and that visiting all your friends cities every day is not possible as it does take some serious time to do.

It is highly recommended to have game friends of similar playing styles. There are players that take the game very seriously and expect to have gifts every day and other players that just play casually and really don't care.

Gifting Limits:

- Sending Charger items (free depending on your experience level) (50 per day)
- Sending Collection Items (deducted from your inventory) (10 per day)
- Sending Energy (once per day)
- Visiting Cities & Wish lists (location envelopes based on your experience/heart/energy level)
