

Instagram outreach message

Niche Forex Trader

I am writing an outreach message to a forex trader with no website and no Telegram to help him sell his courses and reach more people.

Oops, the compliment I'm not sure but he has an excellent trading setup with many screenshots of his technical analytics,

here is what my compliment will be like:

"My brother follows your Instagram account and has doubled his trading account in less than a month"

Hi Andrew

My brother follows your Instagram account and has doubled his trading account in less than a month.

You can help thousands of traders, including newbies, to get cash from the market.

In order to reach more people, I can see that a few fundamental things are missing.

If you want to find out, I can offer it to you as a gift

Best regards,

Derrick Kanda
