

[What Happened to Wisconsin's Wolves?](#) December 9, 2020

WXPR

... Wolves have been living in Wisconsin since the last Ice Age ... When Americans first started settling in Wisconsin there were anywhere from 3,000 to 5,000 wolves in the region... in 1865 the legislature passed a bounty ... five dollars for each wolf killed. By 1900, no wolves remained in the southern part of the state ...
