

Waterton Lakes National Park

Waterton Lakes National Park, located in Canada, pairs with Glacier National Park to form an international peace park, the first ever in the world. Waterton Lakes has many incredible features itself, such as the Prince of Wales Hotel, which is featured in this image.

Difficulty

Medium

Color Scheme

- 1- Duck Tape brand "Old School Silver"
- 2- Painters Tape Dark Blue "Clean Release"
- 3- Electric Tape Green
- 4- Duck Tape brand "Green"
- 5- Frog Tape Green
- 6- Duck Tape brand "Sage"
- 7- Duck Tape brand "Electric Blue"
- 8- Duck Tape brand "White"
- 9- Duck Tape brand "Red"
- 10- Duck Tape brand "Beige"

Time Saver

- Remember that you do not need to follow the lines identically. No one will know if the clouds that you create are slightly different than how they are outlined. Make it your own
- Work from the background to the foreground, starting with the sky. It will save you time and make your piece look better.

More Advanced

- Add short horizontal lines to the water. You could use other colors included in the piece, for example white or blue. This will give the water a ripple effect.

Purchasing Tape

- Most duck tape brands can be purchased at your local craft stores, such as JOANN Fabric, Michaels, or Walmart
- Painters tape can be purchased at most home improvement stores, such as Lowes, Home Depot, or Walmart. Keep in mind that there are two shades of blue painters tape. This piece calls for the darker of the two shades.
- Frog tape, which is a type of painters tape, can be purchased at most home improvement stores, such as Lowes, Home Depot, or Walmart
- Electrical tape is a type of tape that electricians use. You can find it at most home improvement stores, such as Lowes, Home Depot, or Walmart. There is no specific brand that you need, just a dark, forest green color of electrical tape
