Social Media Champion: Any promotion of our social media content is helpful, if you'd like to access graphics and be tuned in to collaborative posting, sign up here with the memo "social media champion" in the memo at the bottom: <https://goo.gl/forms/3zzl3lLoVIJl1OQg2>

Op-eds: Public narrative is something that is historically controlled by the establishment. Together we can shift the narrative. If you would like to write a short piece on why Oversight is important to you, we'd love to help you publish and distribute it! Sign up here with the words, "Op-ed" in the memo at the bottom: <https://goo.gl/forms/3zzl3lLoVIJl1OQg2>

Flyering: There are tons of special events in the city this month. Many of them will be great places to get the word out to Nashville about the importance of this vote. If you would like to be able to print and flyer on your own, sign up here and we will send you links for everything you need! Just write "flyers" in the memo line! <https://goo.gl/forms/3zzl3lLoVIJl1OQg2>

Text Mobilizing: We have partnered with Black Voters Matter to use the app called Hustle to text Davidson County Voters urging them to vote "FORon1". You can go through training anytime to be ready for the next round of numbers. The app is easy to navigate and you can either use pre-loaded responses or respond improvisationally. We have reached over 7 thousand voters this way already. Email us at nashvillecob@gmail.com to get training info!
