

## **Bachelor of Science in Healthcare Administration, Minor in Christian Healthcare Ethics**

HBI University

Course Duration: 4 years

Credit Hours: 135

### **Program Description**

The Bachelor of Science in Healthcare Administration, Minor in Christian Healthcare Ethics at HBIU University is a comprehensive program designed for students who aspire to work in healthcare administration while integrating Christian ethics into their practice. This program focuses on healthcare leadership, management principles, and ethical decision-making in the context of healthcare organizations. Students will gain the skills needed to oversee the operations of hospitals, clinics, and long-term care facilities while ensuring that ethical guidelines are maintained in patient care and organizational practices.

Students will study healthcare policies, financial management, patient care systems, and the importance of ethical leadership in healthcare management. The Minor in Christian Healthcare Ethics will help students apply biblical principles in healthcare decision-making and patient interactions, with a focus on compassionate care, justice, and equitable access to services. Graduates will be prepared for leadership roles in healthcare administration, equipped to manage healthcare organizations while upholding Christian values in their decision-making processes.

This program will give students a robust foundation in healthcare operations, as well as the ability to lead with integrity and Christian ethics in healthcare systems.

## Admissions Requirements

- High school diploma or equivalent
- Minimum GPA of 2.5
- Personal statement outlining career goals in healthcare administration and ethical leadership
- Two letters of recommendation
- Resume (if applicable)
- SAT/ACT scores (if applicable)

## Capstone Project (15 Credit Hours)

The capstone project serves as a culminating experience, allowing students to apply healthcare management strategies, ethical decision-making, and Christian ethics in a final project.

Students will:

- Develop a comprehensive healthcare administration plan for a faith-based organization or non-profit health ministry.
- Design a health ministry program that integrates spiritual care with healthcare services in a church setting.
- Evaluate the impact of health ministry programs and propose improvements for better community outreach and healthcare delivery.
- Present findings and recommendations through a formal report and presentation.

This experience ensures students graduate with practical expertise in healthcare administration, Christian healthcare ethics, and ethical service in health organizations.

## Program Outcomes

Graduates of this program will:

- Gain expertise in healthcare administration, health policy, and patient care management.
- Develop skills in healthcare leadership, strategic planning, and human resources management in healthcare settings.
- Apply biblical principles in healthcare service delivery, spiritual care, and health ministry management.
- Conduct research on healthcare systems and develop health ministry programs that integrate Christian values in patient care.
- Implement effective healthcare strategies, ethical decision-making, and ministry-focused health services.
