Description of Election Process for Membership

The annual election process for new Chapter Board Members begins in mid-July. The membership receives a nomination form via Survey Monkey which identifies the offices up for election. Members may nominate themselves or another interested member. Descriptions of the Responsibilities of Chapter Leaders and their terms of office can be reviewed on the website. Nominated individuals are interviewed, qualified, and approved by the Board of Directors before being placed on the ballot. Election ballots will be emailed to the membership via Survey Monkey in mid-August. The Chapter President informs candidates of election results and announces election results to the membership in the President's September Memo.
