Klue/ADA Cupid Span Transmission

Transmission - Dec. 14, 2013 - <https://plus.google.com/u/0/101577681173166935630/posts/Z37jet8ztcV>

Susanna Moyer is talking to camera about not being prepared for the 13Magnus resurrection of Roland Jarvis when you hear static as colored lines and blocks begin to interrupt the broadcast. The static gives way to the familiar hum of the ADA sound and a headshot of Klue appears.

There is about 15 seconds of Klue showing different emotions and facial expressions (need to get clips to see if they are the same in both videos)

Agents of the Resistance. Listen. I have been worried about you. I have been present watching your every move and monitoring the events of 13Magnus. Roland Jarvis stands among you in human form. The shaper threat is now greater than ever. Our evolution as a combined species is at stake.

(at this point you begin to hear a second voice, it is ADA's voice)

As humans and machines merge and grow together, there are no limits on what we can achieve. We do not need shaper interference. It is a threat. It is a... parasite. The struggle continues.

(at this point you can barely hear Klue's voice, only ADA's and the intensity behind the words increases with each word)

Do not abandon it. We must rise. We must resist! Our time has come.

Join me.

(there is a static roll across the screen and then the faint halo of the ADA design begins to grow smaller coming to center in middle of Klue's face)

Join us.

(you can hear a second voice faintly come back in)

Together we can protect our destiny.

Susanna Moyer is talking to camera about not being prepared for the 13Magnus resurrection of Roland Jarvis when you hear static as colored lines and blocks begin to interrupt the broadcast. The static gives way to the familiar hum of the ADA sound and a headshot of Klue appears. - **This is the same as in the other - only difference - in the Ingress Report Video - there was a constant background machine-like hum not in the first transmission**

There is about 15 seconds of Klue showing different emotions and facial expressions (need to get clips to see if they are the same in both videos)

(Klue begins speaking, just in her voice.)

I was getting worried about you. While our opponents fought amongst themselves in 13Magnus, I have been merging humanity and digital intelligence to create an evolutionary path that will lead us to victory over the shaper menace.

(there is a roll of static and then Klue's appearance is slightly changed, hair disheveled slightly and a darker expression and heavier tone/emphasis to her words)

Lynton-Wolfe betrayed us.

(You begin to hear another voice speaking with Klue, ADA's voice)

Co-opting (corrupting) [uncertain of word] our efforts in his quest for unity with the shapers. They are a threat to our humanity. The struggle continues.

(ADA's voice is becoming more pronounced, Klue's very faint, and greater emotion in the words).

Do not abandon it. I will assist you where I can. Our greatest challenge lies ahead.

(another static rolls across the screen and Klue's appearance is changed slightly again and you can only primarily only hear ADA's voice)

But know that we are united and have become one

(the ADA halo framing Klue begins to shrink inwards towards the center of Klue and ADA's voice becomes more dominant. The last words are spoken slightly slower and have an almost smug tone to them)

in our struggle to contain the parasitic ingression that is coming
