

EOA Elementary At-Home Pacing Guide 2022 - 2023

As we get our year started, it is important to set up some pacing guidelines for your student so that all coursework can be completed by the end of your school year. The goal for students to work towards each week has been added to this pacing guide. Our recommendation is that students should expect to work at least 4 hours a day on academic work 5 days a week including attendance to live lessons with the online instructor and independent work at home with guidance from the learning guide. Please feel free to reach out to your homeroom teacher to help find a schedule that works best for you & your student.

Note: National holidays are honored and there will be no live lessons. Please use your district academic calendar for additional days off.
