Suggested Letter Text:

I am writing in favor of the **proposed action (preferred alternative)** outlined in the Programmatic Environmental Assessment for the use of electric bicycles within the U.S. National Park System. Expanding access to electric bicycles will help more Americans enjoy the beauty and wonder of our National Parks while dispersing congestion from crowded park areas by replacing car trips with those made by bike.

Electric bicycles, including Class 1 electric mountain bicycles, should be treated the same as non-electric bicycles across our public lands. Thank you for the opportunity to comment and your consideration of e-bike access in our National Park System.

Sincerely,
